SHIKIZAI KYOKAISHI
(Journal of the Japan Society of Colour Material)
Vol. 83, No. 6, JUN., 2010

Contents

Original Research Paper ;

Study of Penetration of Polar Molecules through Lead Films by Inelastic Electron Tunneling Spectroscopy and Atomic Force Microscopy

------ Morihide HIGO, Youichi IKEDA, Shunichi KIDOGUCHI, Masaru MITSUSHIO and Toshifumi YOSHIDOME --- 249

Synthesis of Triphenylamine Hole Transport Materials and their Properties for Dye-Sensitized Solar Cell

------ Yukinori NAGAO, Takeshi SAITO, Masatoshi TSUCHIYA, Souhei SUDA, Koji ARIMITSU and KOZO KOZAWA --- 256

Digest ;

Characteristic of UV Curing Composite that uses the Multifunctional Secondary Thiol Compounds

.................................................................................................................................................................................................................................................. Katsumi MUROFUSHI --- 263

Current Topics ;

Depth Analysis of Coating Film using Oblique Cutting Machine

.................................................................................................................................................................................................................................................. Yasuo ESASI and Masao TSUI --- 270

Serial Lecture ;

Introduction to Nanospace Materials and the Recent Topics

.................................................................................................................................................................................................................................................. Atsushi SHIMOJIMA and Tatsuya OKUBO --- 276
